

The Discovery Labs Innovation Renaissance

Home To A World-Renowned
Scientific Community on A Premier
Life Science Campus

Innovation Renaissance is an 18 building,
900,000 SF world-class, transit-oriented
Life Science, Healthcare, and Technology
campus on 80 acres in King of Prussia, PA.

This campus supports BSL-2 Labs,
AD/PD Labs, R&D Labs, Biotechnology Labs,
Plasmid, Viral Vector, Mycoplasma, and
other cGMP Manufacturing Suites.

The Discovery Labs 2100 Renaissance

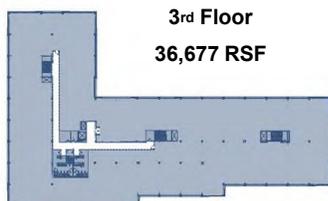

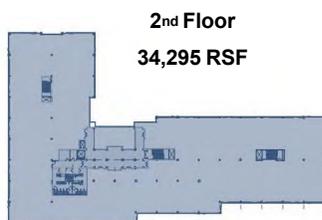

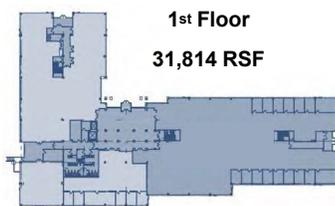

- Latest Addition to the Innovation Renaissance Campus
- Excellent Office to Lab Conversion Opportunity
- 102,786 RSF (15,491 SF currently available)
- 3-story steel masonry and glass structure
- 5/1,000 parking
- Take advantage of an incredible building signage and branding opportunity at the property's prominent hill-top location along the campus' main road.

Building Improvements Underway

- Replacing two of the three Airside Air Handling Units (“AHU’s”) with each unit providing 100% Outside Air and 45,000 CFM’s with 210 tons of cooling capacity.
- Replacement AHU’s are configured to include fans, filters, air-cooled direct-expansion condensers and coils, hot water pre-heat coils, steam humidifiers and heat recovery.
- Install 12 new exhaust fans/risers for tenant connection of fume hoods and any other specialty exhaust system to provide a total of 90,000 CFM’s.
- Installing two new Hot Water Boilers to provide 3,000 MBTU/ Hour for ventilation pre-heat, perimeter heating and re-heat.
- New Building Management System to provide DDC controls for temperature, humidity and monitor power loss.
- New 2000A electric service and switchboard to the Main Electric Room with re-feed to upper floor electric rooms.
- New 800kW Diesel Back-Up Power Generator and Automatic Transfer Switch for both life safety and tenant use.
- Adding an additional 2.5” domestic water service for a total of 5” of water service.
- Adding a new Biowaste laboratory infrastructure with vents and risers for tenant connection to tenant provided pH Neutralization system.
